

## Flat Panel Ceiling Lifts—FPLCV2 -85+LM+LOCK

FPLC V2+LM series of flat panel ceiling lift mechanisms offers vertical lowering motion, for applications with increased floor-ceiling distance. The addition of FPLCV2-85+LM+LOCK model covers plus size TV sets.

Maximum safety is achieved in closed position with the electric safety locking system.

Its silent operation and smooth motion make this series an elegant and reliable solution!

Model	FPLCV2-85+LM+LOCK
Maximum flat panel dimensions (WxHxD)	≤ 1930x1100x90mm
Maximum load (flat panel+ceiling cover)	75kg
Lift dimensions (WxHxL), excluding control box	2360x300x1560mm
Vertical lowering distance up to	655mm
Mounting flat panel holes pattern up to	800x400mm
Standard color of metallic parts	powder coating in RAL 9005 black or RAL 9016 white
Power supply	110-230VAC-50/60Hz
Standard control option	dry contacts control box
Optional controls	RF remote control, RS 232 or 485 ports
